On the morning of Tuesday, September 23rd, 2014 a significant motor vehicle accident occurred at the intersection of Clifton Road and Gatewood Road. The accident involved three vehicles and two pedestrians. The accident resulted in the closure of all southbound lanes of Clifton Road for a significant period of time. Two pedestrians were struck by one vehicle. One pedestrian was thrown into nearby bushes; the other was trapped underneath one of the vehicles.

Mr. Garrett (Michael Garrett) was present in the area when the accident occurred. He witnessed the tail end of the collisions and saw the pedestrians who had been struck. He immediately went to the victim who was still trapped underneath a car, held his hand, and stayed with him to comfort him until rescue units arrived. After the victims had been transported to the hospital the wrecker service began the process of removing the damaged vehicles and cleaning the debris from the street. They swept a large amount of debris into the rain gutter on the side of the road and left it there. Mr. Garrett took it upon himself to get a garbage bag to collect the debris and assist in removing it from the roadway entirely. This action not only helped clean the area but may have prevented additional damages to other cars that may have later run over the debris.

Mr. Garrett’s selfless actions far exceeded expectations and demonstrated a true desire to simply pitch in and help because help was needed. Mr. Garrett truly exemplified our MVV’s. His actions reflected positively not only upon himself, but upon Campus Services and Emory University as a whole.

Craig Watson
Chief of Police
Hello Bridget (Steele-Mourao)!

On behalf of Oxford RES, I just wanted to reach out and express our thanks to you for your help with RA Training early this semester! Your help was so appreciated--our students always enjoy your fire safety presentation and the demonstration is a yearly favorite of theirs. I have a small goodie bag for you in my office that I've been wanting to get to you, but I didn't see you when we had our fire drills earlier in the month. I hope you'll let me know the next time you are out at Oxford so I can get that to you.

Here's hoping the semester has gotten off to a good start for you in Atlanta!

Best,

Chi

Dear Morgan (Taylor) and Greg (Fricker),

Lekshmi called the command staff this week to say that you did a great job taking care of this patient. The patient did have a dislocated hip that required reduction, and she was admitted to the hospital overnight. Morgan, you especially were an exemplary patient advocate and provided care that went above and beyond what was required. The AMR crew asked you to ride with them during the transport, and the ER staff also noticed how much of a rapport you had developed with the patient. Upon arrival at the hospital, you made sure your unit was back in service but still stayed with the patient until ER resources were available to take over for you. The care you provided no doubt lessened the patient's pain and anxiety.

Thank you both for your service and dedication to a job well done!

Best,

Rachel

Kudos to all those who assisted in repairing the 10” water line break last Friday afternoon. Attached are a couple pictures of the progress. A special thanks to Stephen Sheldon and Robert Williams who did most of the digging and Clay Sizemore for applying the clay. Also, a big thanks to Clif for assisting in the digging and guiding the work as well as Jimmy Powell for providing safety oversight. Thanks to Chris Jackman, Victor Jackson and the Zone Mechanics for their initial assessment and for Joan Kowal, Rob Manchester, John Moody for assisting with liaison with the County and providing engineering utility drawings. A few of those mentioned above stayed well after hours in order to ensure the waterline was repaired and service restored. I’m sure I missed a few names and if I did, a big thanks to you too!

This was yet another example of the team coming together, taking care of business in a coordinated and safe manner.

Thanks for taking care of Emory!

Regards,

Todd Kerzie
AVP Facilities Management
Herman,

I’ve been a member of the Woodruff PE center for many years. Over that time, I’ve gotten to know and value Dolores Brown. She always has a great attitude and speaks kindly to everyone. She’s extremely attentive to the occupants, which include some of the most diverse users in any building on campus: summer camps, Emory students, faculty, and staff, all of the visitors for events, and parent and students attending tours. I often see her working collaboratively with other members of BRS to solve issues quickly and efficiently. It’s great knowing there are fellow Campus Services employees that I can rely on whenever I have a need. She’s a great example of Campus Services’ Mission Vision and Values. Please let her know how much she is valued.

Thanks,

Robin

Recently, a very dear member of our community passed away. Mary Landt moved to Oxford back in the late sixties when her husband Fred accepted a faculty position at Oxford College. Mary worked and volunteered at the college for years. My son Max worked for her a couple of summers ago helping her keep her yard clean and they became very close.

Early this week a call came out from Chaplin Lyn Pace and a retired faculty member for the need of some help cleaning Mary’s yard up to make it presentable for friends of the family. In my absence Al (Mitchell) took care of the request which took that burden off of Mary’s son and daughter.

Thanks Al.

Oxford Facilities Management
Captain Walker,

Thank you for coming in and talking with all of us about the EPD. We're so grateful to have you!

THE PALS + Kelly
2014-15
Chief Watson -

I would like to thank you for allowing our Cub Scout Den to tour your department on Sunday, 10/12/14. Officer Johnson and Sergeant Randall were excellent speakers for the boys and graciously accommodated our request to meet on a Sunday afternoon.

We really appreciate their time and effort to put on an outstanding program for the boys and provide some valuable lessons as well.

Thank you again -

Eric Boelhouwer
Den 1 Leader, Pack 6

---

Dear Dee (Sneed) and Donna (Matthews),

On behalf of the entire McTyeire community, we wanted to communicate with you how stellar our custodial and maintenance staff has been thus far. Since the beginning of the year, Andy, Allison, and Marlin have gone above and beyond their duties to ensure that our halls are comfortable living spaces for all. We realize that McTyeire has a difficult group of residents this year who don't seem to know how to live in a common space, yet, the Halls are trash free and the bathrooms are thoroughly cleaned. Every time there is some form of vandalism, it is always fixed the next day with no delay. Whenever we see either of them in the halls they are always making sure that McTyeire is comfortable for us to live in. Whether it is fixing the temperature control, the doors, or the messy kitchen, Allison, Marlin and Andy are always there to help. They are extremely helpful and go out of their way to make sure that each issue is addressed. Moreover, they have fulfilled their responsibilities with smiles on their faces. We are truly appreciative of their daily efforts here at McTyeire.

Warmly,

McTyeire Hall Staff
Hi,

My name is Tyler Lattimore and I am a junior here in the College double majoring in Political Science and Economics.

I am writing to share an experience I had with a few EPD officers. On the evening of Saturday, October 18th, the officers (I never got their names) responded to a call of some screaming that apparently was described to them as a "cry for help."

I happened to be walking out of the door of my apartment just as the officers reached my floor. When they asked me why they were there, I was initially caught off guard; but the officers were respectful and even comforting as we continued to interact.

The cries for help were actually my girlfriend, a senior at Notre Dame, screaming at the television as Florida State scored the final points that put an "L" on her team's record. The officers asked me to bring her out to them so they could confirm everyone's safety and even joked around and shared a few laughs with us as they made their report.

I simply want to express my appreciation for the way in which the officers did their job and the overabundance of kindness they showed us. They even allowed us to take a few pictures to capture the moment.

Thanks again for the work you all do and the kindness you show us here at Emory.

Best,

Tyler Lattimore
Emory University, Class of 2016
Stuart (Adler),

I had people taking aerial photos of the Hospital expansion project shoot a couple of extras, check out the attached.

One shows the progress of the Lowergate deck work. The next one is a beautiful picture of Woodruff circle. These are 2 very important projects and have been so well received! Thanks for all that you do for our patients, visitors, and staff.
